

Coastal GeoTools Conference
February 11-14, 2019
Embassy Suites at Kingston Plantation
Myrtle Beach, South Carolina
Hosted by ASFPM

Sponsorship & Exhibitor Opportunities

Coastal GeoTools is the nation's premiere conference dedicated to technology and the coastal environment. Held since 1999, the biannual event is a must-attend learning experience for planners, engineers, natural resource managers, geospatial analysts, and scientists from all sectors. In fact, many participants come back year after year - the conference is just that good! Participants come to GeoTools to find innovative, proven approaches to address their coastal management issues, learn about the latest technologies, and build their professional networks. We invite you to become a part of this tradition by becoming a sponsor and/or an exhibitor for Coastal GeoTools 2019.

We are offering an opportunity for sponsorship at various levels where you will have lengthy opportunities to engage with clients, colleagues, government officials, and industry leaders. We hope that your organization can support the workshop through attendance and participation as a sponsor and/or exhibitor. Questions should be directed to Jenny at jenny@floods.org or 608-828-6329.
