

	8 a.m.	9 a.m.	10 a.m.	11 a.m.	Noon	1 p.m.	2 p.m.	3 p.m.	4 p.m.	5 p.m.	6 p.m.	7 p.m.
Monday, January 27	Registration Check-In											Exhibitor Reception
		Special Interest Meeting: Advancing Science and Service with NOAA's New Flood Inundation Maps, Economic Data, and the Coastal Inundation Community of Practice		Lunch on Your Own		Special Interest Meeting: Uncrewed Aircraft Systems for Coastal Research and Management						
		Special Interest Meeting: The Future of the U.S. Mapping Coordination Site		Lunch on Your Own		Special Interest Meeting: Navigating Various Changing Water Level Tools						
		Special Interest Meeting: Overview of National Geodetic Survey Tools and the Modernized National Spatial Reference System		Lunch on Your Own		Special Interest Meeting: Overview of National Geodetic Survey Tools and the Modernized National Spatial Reference System (until 2:30)						
		Special Interest Meeting: FutureScape Resilience Simulation		Lunch on Your Own		Special Interest Meeting: Tribal and Indigenous Technical Assistance Coordination and Planning						
Tuesday, January 28	Registration Check-In											Evening on Your Own
		Welcome and Opening Plenary: Partnerships, Resilience, and Reflecting on Indigenous Relations in Open Science	Break	Building Capacity for Climate Resilience in Coastal Plain Tribal Communities	Exhibitor Luncheon	Resilient Land Use Planning	Tools Showcase					
				Digital Coast Connects: Hazards, Flooding, and Underrepresented Communities		Climate Adaptation Strategies						
				Remote Sensing of Wetlands		Climate Change and Conservation Decision Support Tools						
				Engaging Users in Data and Tool Development		High-Resolution Land Cover						
				Benthic Characterizations		Coastal Management Policy in the Great Lakes						
				Elevation Data and Tools		New Federal Datasets for Sea Level Rise and Flooding						
Wednesday, January 29	Registration Check-In											Sponsor Reception (until 9 p.m.)
		Plenary: A Data Sovereignty Panel Discussion	Break	Empowering Tribal Communities through GIS	Exhibitor Luncheon	Harnessing Partnerships for Coastal Innovation: Driving Data Access and Resilience through State and National Collaboration	Break	Infrastructure Adaptation				
				NOAA Climate Resilience Regional Challenge: Leveraging Partnerships to Advance Climate Resilience		Pathways to Access: Conversations with Users on Building Useful and Usable Coastal Management Tools		Using Imagery in Coastal Management				
				The Use of Drones in Coastal Management		Bathymetric Mapping and Data Management		Coastal Adaptation Planning				
				Sea Level Rise Data and Management		Ocean Planning—Part 2		Wetland Habitat Mapping				
				Ocean Planning—Part 1		Development of Regional Resilience Metrics		Natural Disaster Risk Assessment				
				Topobathy Mapping		Coastal Erosion and Shoreline Change—Part 1		Coastal Erosion and Shoreline Change—Part 2				
Thursday, January 30	Evaluation and Towel Pick-Up											
		Resilience Partnerships Matter and It Matters How We Measure Resilience	Break	Spatial Data Development and Analysis in Coastal Areas: Case Studies from Alaska								
		Turning the Tide: Collaborative Efforts to Strengthen Alaska's Coastal Resilience		The Use of Visualizations and Virtual Reality in Risk Communication and Conservation								
		Offshore Wind Planning		Data, Models, and Tools for Sea Level Rise, Coastal Flooding, and Erosion Vulnerability—Part 2								
		Data, Models, and Tools for Sea Level Rise, Coastal Flooding, and Erosion Vulnerability—Part 1		Artificial Intelligence and Deep Learning								
		Geospatial Tools in Coastal Management Applications		Infrastructure Vulnerability								
		Enhancing Coastal Management Application with InSAR Vertical Land Motion Data		Community Engagement in Coastal Management
